Dear Mr. Platini,
Since 1997 we give support to SOS ANIMALS SOCIETY in Kiev/Ukraine. We helped to close the slaughterhouse Budka and found people in Europe who made donations to this society.
Tamara Tarnawska is a friend, and we know her animal protection engagements and give her our support.
We have been informed about the situation of stray animals in Ukraine and that the city administrations are killing by poisoning and shooting thousands of cats and dogs in order to clean up the cities before the Euro 2012 begins.
Mrs. Tarnawska has already asked several times for sterilization and castration programs instead of killing Ukrainian animals again, like in 1996.
We've seen reports in different news of TV stations in Europe about the street demonstrations organized by animal protectors and the Ukrainian population.
Even the Vice Prime Minister Evan Vasiunyk, responsible for Euro 2012, condemns the cruel methods of killing the stray dogs and cats and he has even proposed a hearing on this theme.
The 7th of May Tamara Tarnawska from SOS Animals Kiev (www.sos-animals.com.ua) has been invited by a special parliamentary commission to explain her point of view.
We hope that you, Mr. Platini, take the time to read this letter and to contact Mrs. Tamara Tarnawska (tel. and fax: +38044 2294295, e-mail : tamarat@voliacable.com), in order to try to change the mass destruction of stray animals in Ukraine for the Euro 2012.
The UEFA as a civilized Organization shouldn't allow such cruelty towards animals.
Thank you very much for your attention, waiting for an answer, we remain

Yours faithfully,
SOS Chats
